AutoCAD and other Autodesk products come with a full set of user manuals and other technical documentation. Acquisition and Pricing There are two available AutoCAD versions: AutoCAD LT, a version targeted towards smaller companies and AutoCAD Premier, for larger companies and organizations. AutoCAD LT was first released in May 1998 as a version of AutoCAD that was designed to address some of the shortcomings of AutoCAD '98. AutoCAD LT, originally priced at \$995, was significantly cheaper than AutoCAD '98 and was available only on a per-seat basis. AutoCAD Premier, on the other hand, was priced at \$1,495 per seat and was sold as a software package. In some instances, a company could buy a physical copy of AutoCAD Premier. The last AutoCAD version that is compatible with LT was AutoCAD '99. AutoCAD 2000 and later versions are not compatible with LT, nor are older LT versions compatible with newer AutoCAD versions. Autodesk announced the AutoCAD LT version 1.0 in May 1998. AutoCAD LT version 1.1 was released in October 1999, with AutoCAD LT version 2.0 released in March 2001. AutoCAD LT versions are only available on a per-seat basis. For details of the differences between AutoCAD LT and AutoCAD Premier, see the AutoCAD LT vs. AutoCAD Premier Guide. Autodesk offers AutoCAD for Mac OS X, priced at \$699. AutoCAD Mobile was released for Mac OS X in late 2004. Autodesk offers AutoCAD for iOS, priced at \$149.
