Note As you draw the stylized pencil shape, small shapes that have been previously created will appear on the new layer in the order they were created. You can see the shape drawn earlier in the dialog box, and it will be off to the side, just below the new stylized pencil shape. If you move those smaller pencils to another layer, you can still use them later. 3. **Click once to create the next pencil shape**. To remove a pencil shape, select it and press the spacebar or right-click, then choose **Delete** from the shortcut menu. To add more shapes, drag the shape you want to the top of the layered shape

What's New In?

Photoshop has many actions, presets, and ways to make creative images. Many of the things Photoshop does can also be done with Photoshop Elements, just a few are not. However, Photoshop has many features like layer styles, batch editing, gradients, and image adjustment layers that are not available in Photoshop Elements. These and many more power tools are available to you in Photoshop. NOTE: You cannot use Photoshop's tools to create graphics using Powerpoint. Photoshop's tools are very user friendly.
